Gary;

I'm expecting the IOM any day. I talked with my point of contact in the wastewater permit section and the reviewers have completed their reviews and 'they' are working up the IOM. I have asked that they try to expedite as quickly as possible due to delays in the field work.

I have the draft letter to send the IOM along with and will walk them through the sign off process. I'll let you know when I've received them.

I also received a call from TRC's field hand who also asked for an update.

Phil:

Any news on the water discharge/irrigation permit?

Thanks
